

The ACQ logo is positioned in the top right corner of the slide. It consists of the letters 'ACQ' in a bold, white, sans-serif font. The background of the slide is a close-up photograph of a laptop keyboard and a smartphone, with a USB drive plugged into the laptop's port. The lighting is soft, and the colors are muted, creating a professional and modern aesthetic.

ACQ

Investor Presentation

ACQ BURE AB AND YUBICO AB TO MERGE TO FORM A
LISTED LEADING GLOBAL AUTHENTICATION PROVIDER

April 2023

Important information

The release, publication or distribution of this presentation may, in certain jurisdictions, be restricted by law and persons into whose possession this presentation or any information referred to herein comes should inform themselves about and observe any such restrictions. This presentation is not for release, publication or distribution, directly or indirectly, in whole or in part, in or into the United States (including its territories and possessions, any state of the United States and the District of Columbia, the “**United States**”), Australia, Canada, Hong Kong, Japan, South Africa or any other jurisdiction where such release, publication or distribution would constitute a violation of the relevant laws or regulations of such jurisdiction. This presentation does not constitute or form a part of any offer or solicitation to purchase or subscribe for securities in the United States, Australia, Canada, Hong Kong, South Africa or any other jurisdiction in which such offers or sales are unlawful (the “**Excluded Territories**”).

The securities referred to in this presentation have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the “**U.S. Securities Act**”), or under the securities laws of any state of the United States, and may not be offered, sold, resold or delivered, directly or indirectly, in or into the United States absent registration except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. Subject to certain limited exceptions, the securities referred to in this presentation are being offered and sold only outside the United States. There is no intention to register any securities referred to herein in the United States or to make a public offering of the securities in the United States. In addition, the securities issued in connection with the offering have not been and will not be registered under any applicable securities laws of any state, province, territory, county or jurisdiction of the other Excluded Territories. Accordingly, such securities may not be offered, sold, resold, taken up, exercised, renounced, transferred, delivered or distributed, directly or indirectly, in or into the Excluded Territories or any other jurisdiction if to do so would constitute a violation of the relevant laws of, or require registration of such securities in, the relevant jurisdiction. Further details of which U.S. and other holders of Yubico shares are eligible to receive ACQ shares in the merger, and the procedural steps required to be taken by such persons in order to receive such shares, as well as the procedures for those U.S. and other holders of Yubico shares who do not so qualify to receive ACQ shares, will be delivered to the relevant holders.

The ACQ shares are not listed on a U.S. securities exchange and ACQ is not subject to the periodic reporting requirements of the U.S. Securities Exchange Act of 1934, as amended (the “**U.S. Exchange Act**”), and is not required to, and does not, file any reports with the U.S. Securities and Exchange Commission (the “**SEC**”) thereunder. The ACQ shares have not been and will not be listed on a U.S. securities exchange or quoted on any inter-dealer quotation system in the United States. Neither ACQ nor Yubico intends to take any action to facilitate a market in the ACQ shares in the United States. The Transaction to which this presentation relates is proposed to be effected by means of a statutory merger under Swedish law. This presentation, and any other documents relating to the Transaction, have been, or will be, prepared in accordance with Swedish law, the Swedish Companies Act and Swedish disclosure requirements, format and style, all of which differ from those in the United States. The Transaction is not subject to the tender offer rules or the proxy solicitation rules under U.S. Exchange Act. Accordingly, the Transaction is subject to the disclosure and procedural requirements of, and practices applicable in, Sweden to statutory mergers, which differ from the disclosure and procedural requirements of the U.S. tender offer and proxy solicitation rules. Neither the U.S. Securities and Exchange Commission (SEC) nor any U.S. state securities commission has approved or disapproved the Transaction or the ACQ shares to be issued in connection therewith, passed upon the merits or fairness of the Transaction, or passed any comment upon the adequacy, accuracy or completeness of the disclosure in this presentation. Any representation to the contrary is a criminal offence in the United States.

Financial statements, and all financial information that is included in this presentation or any other documents relating to the Transaction, have been or will be prepared in accordance with the Swedish Accounting Standards Board's general advice on consolidated accounting or other reporting standards or accounting practices which may not be comparable to financial statements of companies in the United States or other companies whose financial statements are prepared in accordance with the International Financial Reporting Standards (IFRS), as adopted by the EU or the International Accounting Standards Board (IASB), or generally accepted accounting principles in the United States (US GAAP). The receipt of cash and ACQ shares by U.S. holders of Yubico common shares may be a taxable transaction for U.S. federal income tax purposes and under applicable U.S. state and local, as well as foreign and other, tax laws. Each holder of shares and warrants (including US options) in Yubico is urged to consult their independent professional adviser immediately regarding the tax consequences of the Transaction applicable to them.

This presentation is not a prospectus for the purposes of Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”) and has not been approved by any regulatory authority in any jurisdiction.

In the United Kingdom, this presentation and any other materials in relation to the securities described herein is being distributed only to, and is directed only at, and any investment or investment activity to which this document relates is available only to, and will be engaged in only with, "qualified investors" (within the meaning of the United Kingdom version of the Prospectus Regulation which is part of United Kingdom law by virtue of the European Union (Withdrawal) Act 2018) and who are (i) persons having professional experience in matters relating to investments who fall within the definition of "investment professionals" in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “**Order**”); or (ii) high net worth entities falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as “**relevant persons**”). In the United Kingdom, any investment or investment activity to which this communication relates is available only to, and will be engaged in only with, relevant persons. Persons who are not relevant persons should not take any action on the basis of this presentation and should not act or rely on it.

This presentation does not identify or suggest, or purport to identify or suggest, the risks (direct or indirect) that may be associated with an investment in the new securities. Any investment decision to acquire or subscribe for securities in ACQ or Yubico must be made on the basis of all publicly available information relating to ACQ and Yubico and their securities, respectively. Such information has not been independently verified by Skandinaviska Enskilda Banken AB. Skandinaviska Enskilda Banken AB is acting for ACQ in connection with the Transaction and no one else and will not be responsible to anyone other than ACQ for providing the protections afforded to its clients nor for giving advice in relation to the transaction or any other matter referred to herein. This presentation does not constitute an invitation to warrant, subscribe, or otherwise acquire or transfer any securities in any jurisdiction. This presentation does not constitute a recommendation for any investors' decisions regarding the Transaction, ACQ or Yubico. Each investor or potential investor should conduct a self-examination, analysis and evaluation of the business and information described in this presentation and any publicly available information.

Forward-looking statements

This presentation contains certain forward-looking statements (including the Combined Company guidance). Forward-looking statements are statements that are not historical facts and may be identified by words such as “believe”, “expect”, “anticipate”, “intends”, “estimate”, “will”, “may”, “continue”, “should” and similar expressions. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions. Although ACQ believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Such risks, uncertainties, contingencies and other important factors could cause actual events to differ materially from the expectations expressed or implied in this release by such forward-looking statements.

The Combined Company's actual results of operations, including the Combined Company's financial condition and liquidity and the development of the industry in which the Combined Company operates, may differ materially from and be more negative than those made in, or suggested by, the forward-looking statements contained in this presentation. Factors, including risks and uncertainties that could cause these differences include, but are not limited to risks associated with implementation of the Combined Company's strategy, risks and uncertainties associated with the Combined Company's ability to develop new services and enhance existing services, the impact of competition, changes in general economy and industry conditions, and legislative, regulatory and political factors.

The information, opinions and forward-looking statements contained in this presentation speak only as at its date and are subject to change without notice. ACQ does not undertake any obligation to review, update, confirm or release publicly any revisions to any forward-looking statements to reflect events that occur or circumstances that arise in relation to the content of this communication.

ACQ has found a target that ticks all the boxes

ACQ

SPAC listed on
Nasdaq Stockholm
since March 2021

A Nordic, high-quality and unlisted company with significant potential in a niche market segment

Leading market position in a stable and growing market

Superior value proposition and a highly differentiated offering

Strong management with extensive experience from the sector

Sustainability agenda complying with regulations, that also enhances the value proposition

Benefits from Bure's expertise in developing high-tech product companies

Yubico is the perfect fit for ACQ – entrepreneur-led company ready for succession

Most secure solution to the number #1 security issue

Leading position in a niche market with double digit growth

Unmatched value proposition combining the highest security with ease of use

Exceptional organic growth profile characterized by profitable growth

Diversified and unique blue-chip customer base with significant opportunity to continue to expand with current customers

Strong management team with extensive sector expertise, ready to execute on growth strategy

yubico

Nordic cybersecurity
pioneer founded
in 2007

Agenda

- **Introduction to Yubico**
- Transaction structure
- Appendix

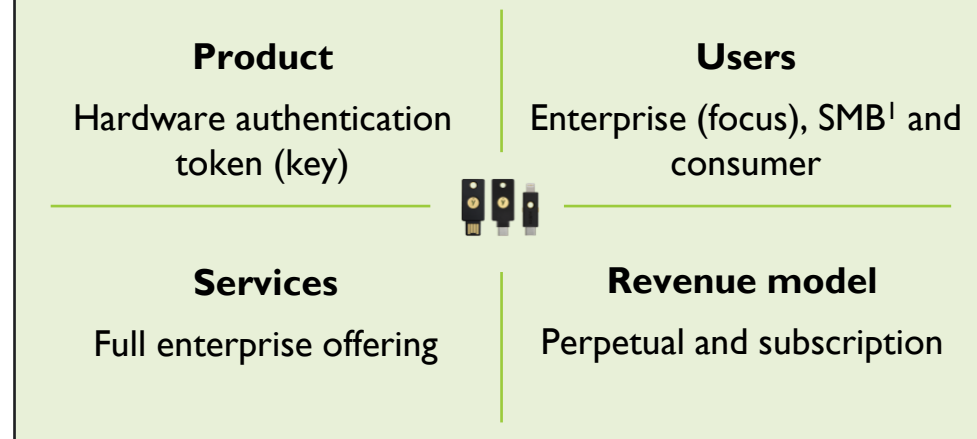

Yubico in short

Problem we solve

- Estimated worldwide spending on authentication c. **USD 5bn in 2023**
- **9 out of 10** cybersecurity breaches are caused by employee mistakes (e.g., use of stolen credentials, phishing or misuse)
- **Phishing-resistant multi-factor authentication** (MFA; i.e., password + 2nd source of ID) is the best solution to this problem

yubico

Most secure solution to the number #1 security issue

Key figures (2022)

SEK 1.6bn
Net sales

~50%
CAGR ('16-'22)²

+80%
Gross margin

~390
Employees³

132%
Avg. annual repurchase rate 2017-22 by top 25 customers from the 2017 cohort

15%
Subscription share of bookings

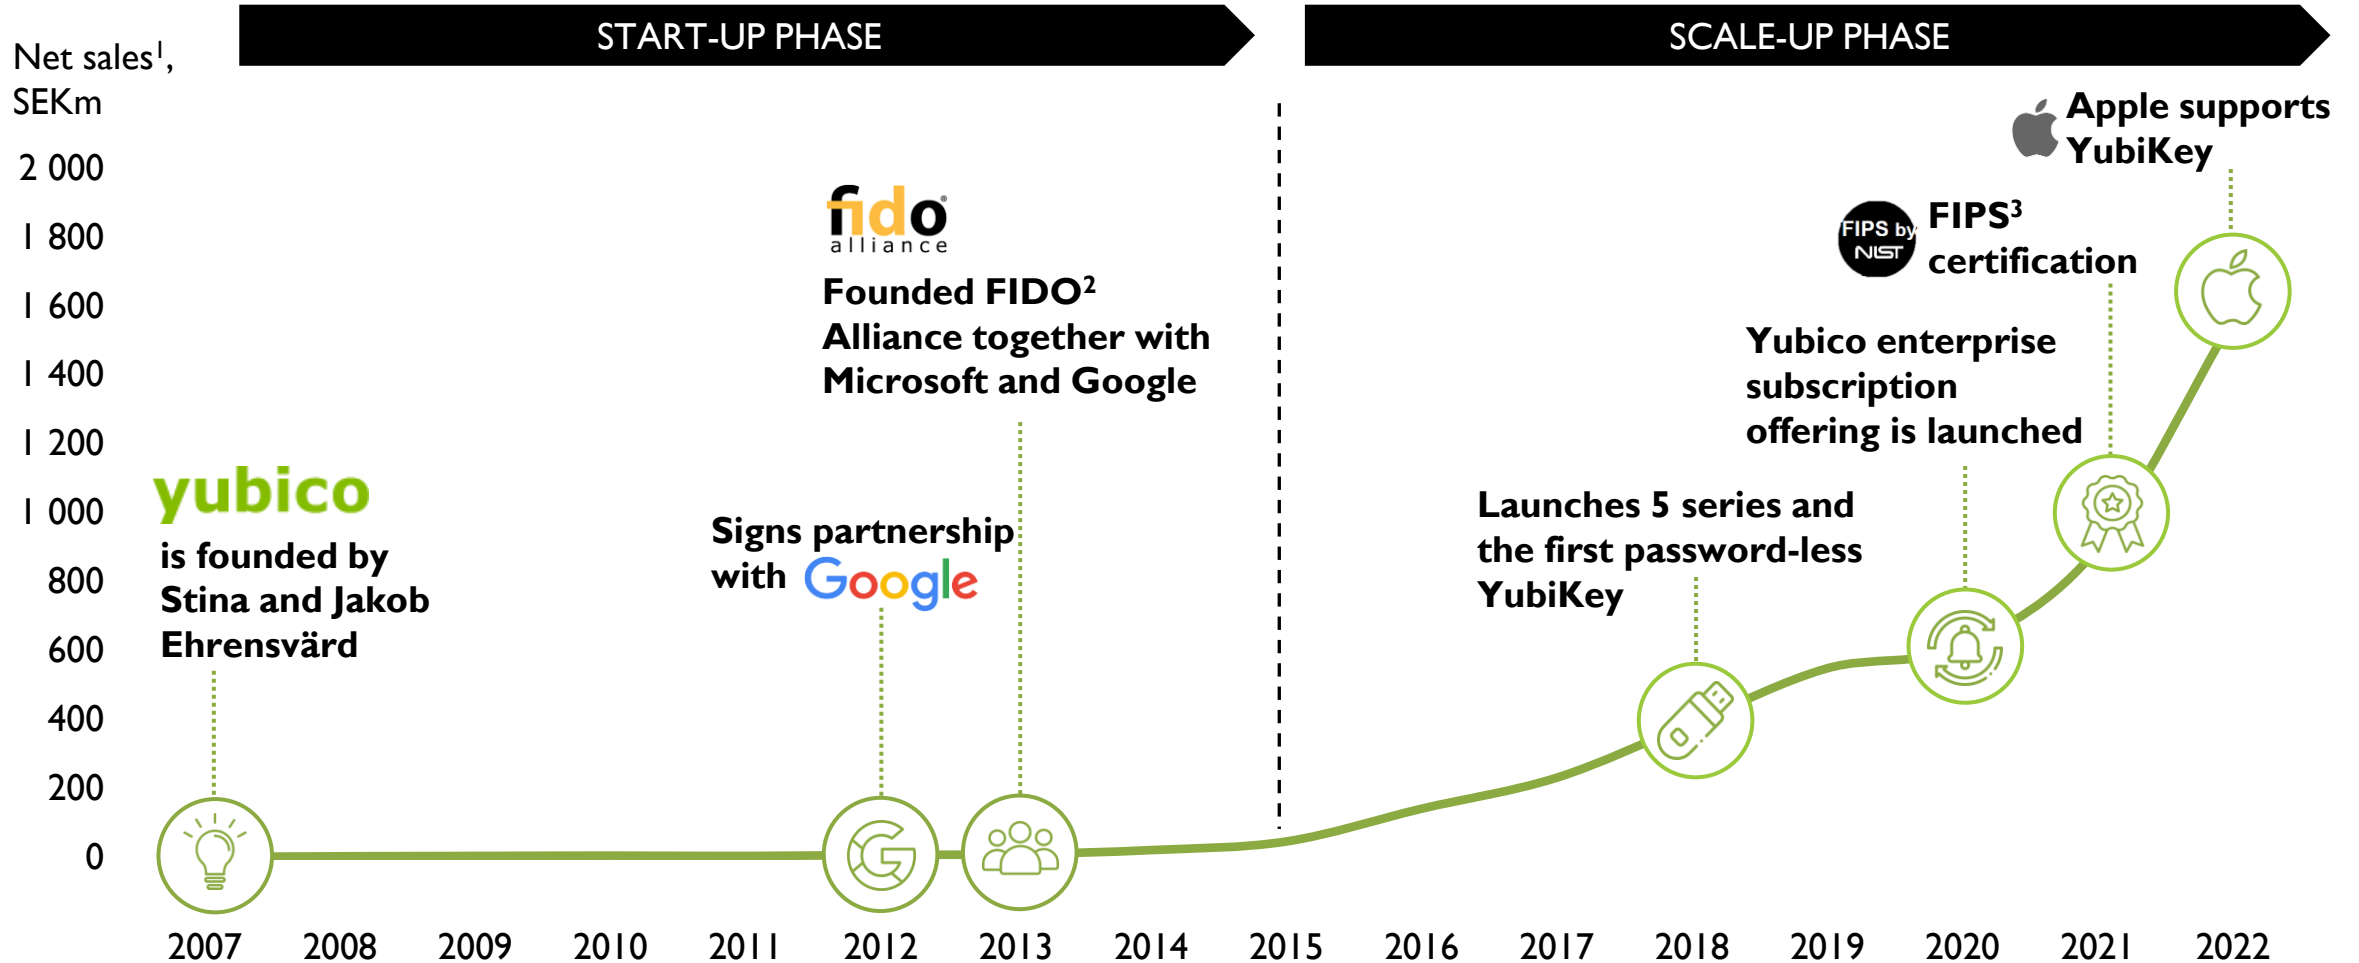

0
of YubiKeys account takeovers since inception

+22m
YubiKeys sold since inception

19/20
of the largest tech platforms in the US

⁶ Source: Company information, IDC Research
Not: 1) Small and medium sized businesses; 2) 2016 net revenues are based on Yubico's annual report 2016, 3) As of February 2023

The Yubico journey, solid foundation to continue scale-up

7 Source: Company information
Notes: 1) Historical net sales based on Yubico annual reports; 2) Fast Identity Online (FIDO); 3) Federal Information Processing Standard (FIPS)

Strong hardware MFA-solution complemented by full suite service offering

Authentication method where the user provides two (2FA) or more (MFA) types of identification

Yubico's range of hardware MFA products offers flexibility

YubiKey
(core products)

Protection for online accounts; email logins, online services, applications, computers and physical spaces

YubiHSM

Protection for servers, applications and computing devices

Complemented with services – transition to subscription model

**YUBI ENTERPRISE LAUNCHED 2020 –
3-YEAR TERM SUBSCRIPTION MODEL**

-  Delivery service & inventory management
-  Professional service
-  Enterprise portal
-  Developer tools

Superior value proposition and highly differentiated authentication solutions

Highest level of security and ease of use...

Highly differentiated product compared to competitive technologies

...confirmed by the **Google** case study – 100% account protection with YubiKeys

Situation

Google had issues with employee accounts being hacked and locked out

Study

After a 2-year evaluation of authentication methods, Google confirmed FIDO U2F Security Keys were best suited to deliver on the company's security and usability needs

Results

Key results; higher security, ease of use, increased flexibility and cost savings. **Following the study**, YubiKeys became mandatory for all employees

Four areas of unique differentiation

World class innovator

- Core inventor behind open standards FIDO2, WebAuthn
- Thought leadership through defining best practices
- Extensive portfolio of proprietary technologies, including patents, to continue to stay many years ahead of competition

Fully controlled secure supply chain at scale

- Manufacturing, testing, provisioning, and order shipment all handled in-house
- Ability to build the product to Yubico's exact specification
- Custom-built tools and software for maximum control and security
- Sensitive data only handled securely, in Yubico's facilities
- Ability to scale production to meet demand

Superior hardware and firmware

- Most feature-rich, easy-to-use, durable, and secure authentication device on the market
- Proprietary firmware developed by industry experts
- Highly secure specialized hardware to minimize the attack surface
- Durable and sleek hardware that can last for years
- Multi-protocol support that can be integrated within existing systems, and provide compatibility across many devices

Enterprise enablement

- Ecosystem with 800+ partner integrations
- Subscription service with fast rollouts, replacements for lost keys and flexible tiers
- Custom programming for pre-configuration of devices
- Open source SDKs to enable custom development and provisioning

Unique customer base – trusted by global market leaders

Tried and tested by the blue-chips

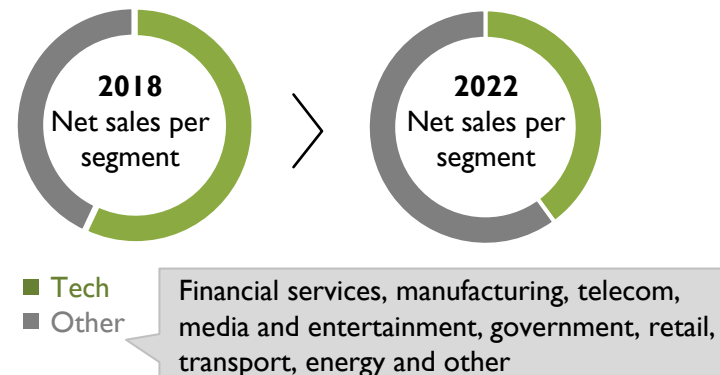

Selection of customers

Continuously landing new key accounts...

...and diversifying across verticals

...and expanding with current accounts

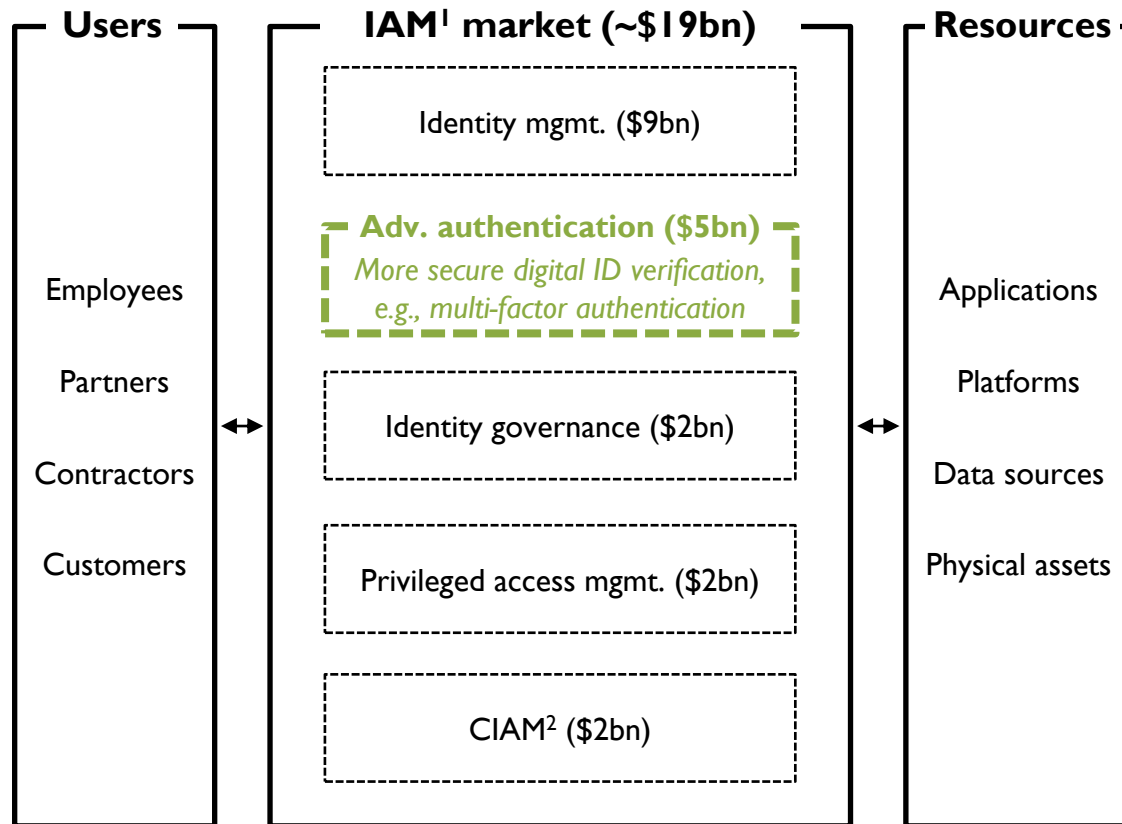

...with a clear go-to-market strategy

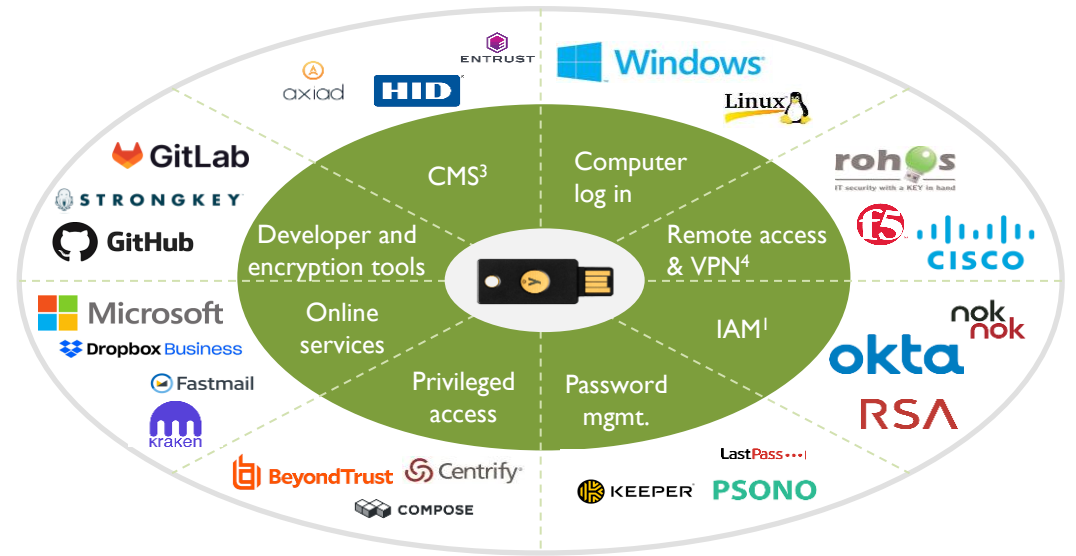

- 1 Build accounts from a smaller group of influential privileged users
- 2 Expand from the initial footprint to other user groups and use-cases
- 3 Easy access of buying keys simplifies the decision process and deployment of additional keys

MFA is a core feature of the identity and access management (IAM) ecosystem

Advanced authentication is a substantial niche segment of the IAM market (2023E size)

Yubico has established a vast partnership network

- Yubico's extensive network of **+800 partner** integrations allows for scalability, ease of deployment and co-selling / marketing
- YubiKeys comply with government regulations (CSPN, DFARS, FIPS, GDPR, PSD2) and are leading open authentication standards (FIDO, OATH, PIV, W3C)

¹² Source: Company information; IDC Research

Notes: 1) Identity and access management (IAM) excludes "Legacy" solutions of c. USD 0.2bn; 2) Consumer identity and access management (CIAM); 3) Content management system (CMS); 4) Virtual private network (VPN)

Attractive market trends support long-term growth opportunity

Global market trends...

Increasing sophisticated cyber threats – hackers are able to bypass traditional network firewall-based security controls, regular email, mobile text message spam and phishing filters

Cloud shift has accelerated Zero trust framework – increasing requirements for strong authentication

Increasing regulatory requirements drive adoption of IAM¹ tools – e.g., new White House executive order requires all US Federal agencies to use phishing-resistant MFA

Increasing shift to advanced authentication in workforce – rolled out to the full workforce, often including partners, contractors and customers' customers

Shifting login models towards user experience and passwordless – companies are independently exploring new login models

IT security is vital for long-term sustainable growth for companies, e.g., UN sustainable development goal #9²

...drive double-digit market growth

■ Global advanced authentication market, USDbn

13 Source: Company information, IDC Research
Notes: 1) Identity Access Management (IAM); 2) United Nation's sustainable development goal #9: Sustainable industry, innovation and infrastructure

Exceptional organic growth profile

Strong net sales growth and highly attractive gross margins

Net sales¹ (SEKm) and gross profit margin (%)

Returning to profitability after heavily R&D/growth investing

EBIT¹ (SEKm) and EBIT margin (%)

Increasing annual recurring revenue (ARR)

Annual recurring revenue^{1,2} (SEKm)

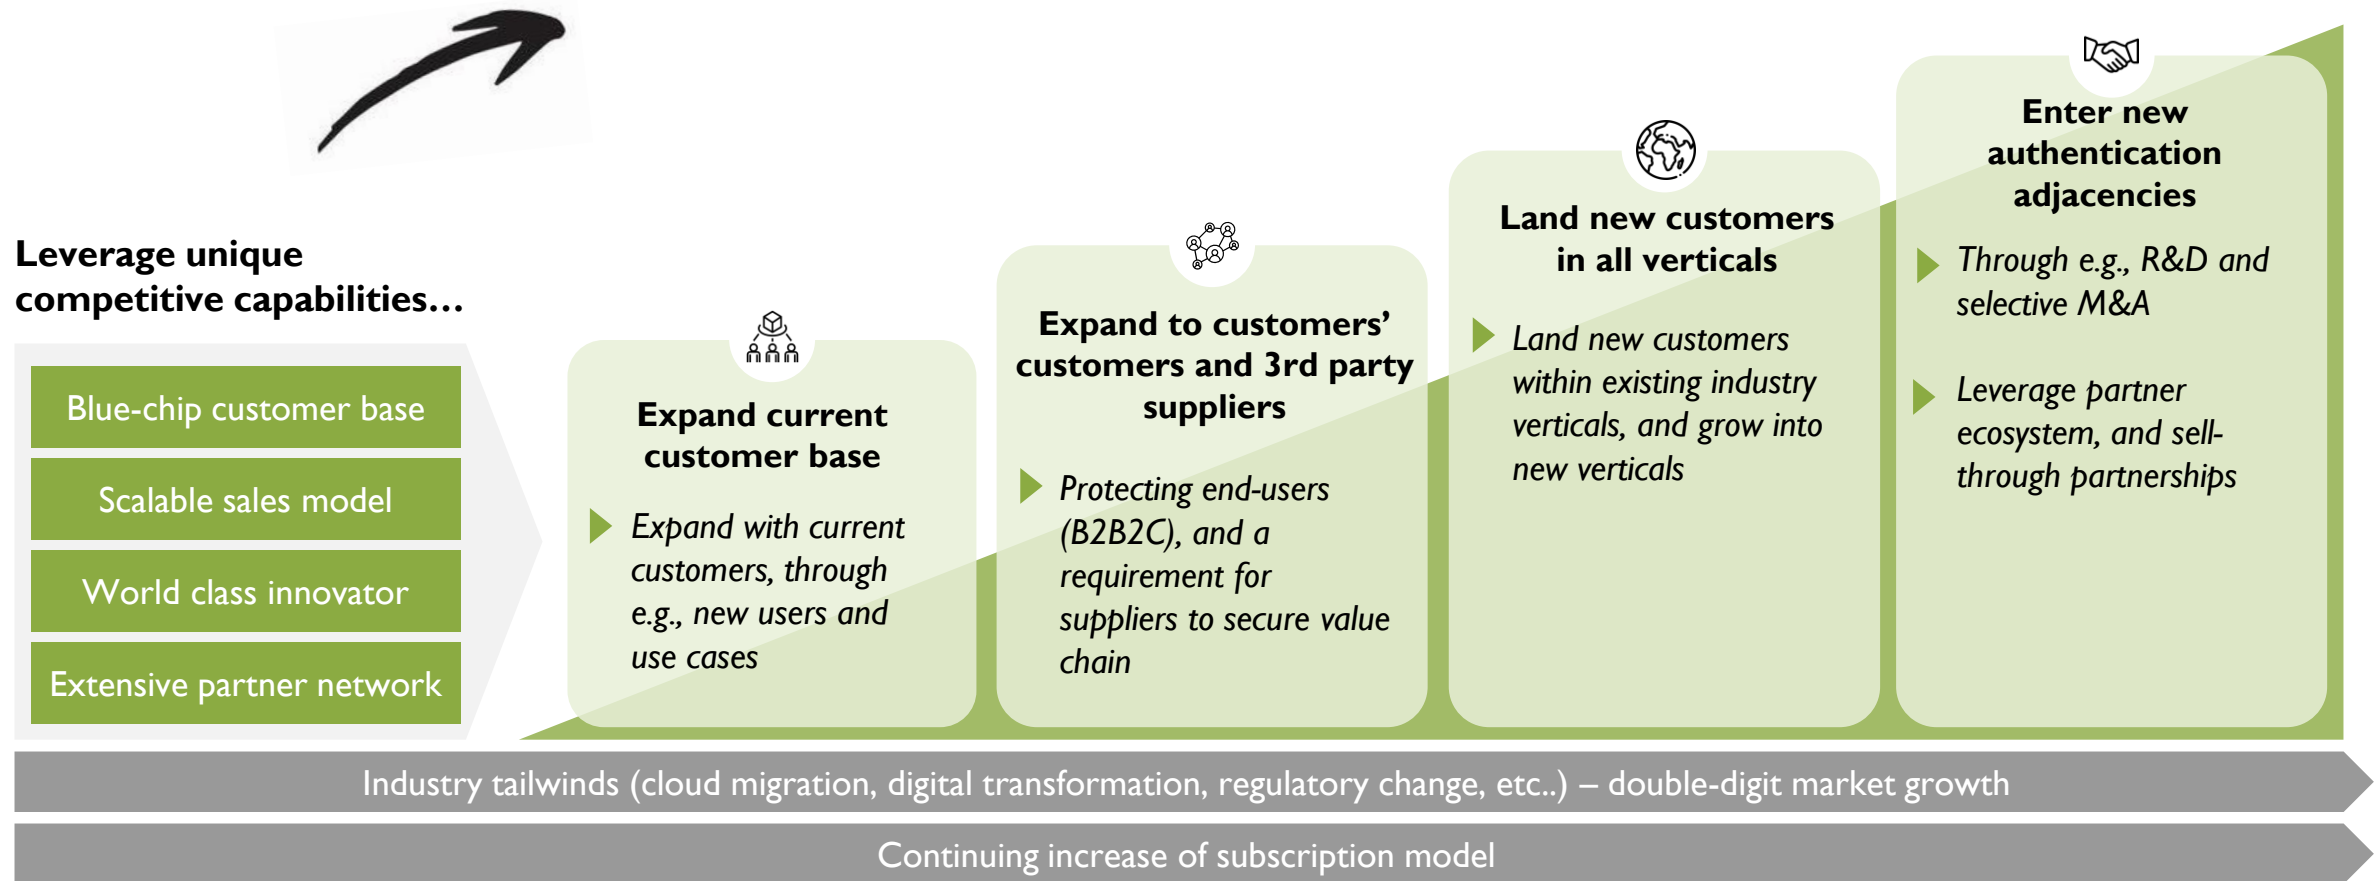

14 Source: Company information

Notes: 1) Key financial information presented herein comprises selected key performance indicators for Yubico, extracted both from Yubico's historical financial statements and internal accounting systems that have not been audited. Re-stated personnel expenses 2020 to 2022 while 2016 to 2019 personnel expenses based on reported financials (not re-stated); 2) ARR defined as annualized contract value related to subscriptions as of the end of the reporting period

Growth through proven land and expand strategy and by entering authentication adjacencies

...to continue to expand through primarily four strategic growth initiatives

Strong management team and solid organization setup – ready to execute on growth opportunities

Highly experienced management team with deep industry knowledge...

...and an organization set up for growth

Clear financial roadmap – overview of financial targets

Target	Long-term financial goals (within 5 years)
 Growth	<ul style="list-style-type: none">• Targets annual growth in bookings (order intake) of 25% on average
 Profitability	<ul style="list-style-type: none">• Targets 20% EBIT margin
 Dividend policy	<ul style="list-style-type: none">• For the foreseeable future, the board of Yubico will primarily use generated cash flows for the company's continued expansion

Agenda

- Introduction to Yubico
- **Transaction structure**
- Appendix

Preliminary transaction structure

Pre-transaction

- Yubico's pre-money valuation¹ of USD 800m (c. SEK 8.3bn²)
- Pre-money valuation of Yubico's common shares of SEK 494 per share
- ACQ SPAC funds of c. SEK 3.5bn as of 14 April 2023

ACQ acquires Yubico through merger

- Consideration consisting of 42% cash (SEK 208 per Yubico share) and 58% shares (2.9 ACQ shares per Yubico share)
- The majority of Yubico shareholders to remain shareholders, incl. founders and all institutional investors
- The combined company is expected to have a strong financial position

Post transaction structure

- Listed at Nasdaq First North Growth Market with the ambition to change to Nasdaq Main Market within 12-18 months
- ACQ owners will hold c. 40% of the shares. Co-founders will hold c. 10% and Bure c. 17% in the combined company
- Estimated Yubico's post-money valuation³ of c. SEK 8.6bn

Agenda

- Introduction to Yubico
- Transaction structure
- **Appendix**

Business model overview – catering for all market segments

Business models

Perpetual

Subscription

Key terms

- Upfront payment to purchase YubiKeys, HSMs and services
- Ownership of asset

- Multi-year terms (3/4/5 years), paid annually or upfront
- Hardware as a service, ownership stays with Yubico

Benefits for customers

- One time budget, no hidden cost
- Capex investment

- Predictable cost over time
- Flexible for changing needs
- Access to new products and services
- Opex purchase

Implications for Yubico

- Upfront cash payment
- No long-term customer commitment
- Fast transactional business (simple proposition)

- Predictable revenue – phasing over contract length
- Deeper customer relationship
- More complex sales but higher revenue
- Majority of total cost incurred first year

Customer segments

- Consumers, prosumers, SMB, enterprises

- Medium and large enterprises, US public sector

■ Subscription share of bookings

■ Subscription share of net sales

Glossary

Advanced authentication	Advanced authentication includes sophisticated methods of authenticating a user and comprises solutions such as hardware tokens supporting any sort of plug or proximity networking protocols, software tokens stored in a computer security chip or a smart device enclave
FIDO2	FIDO2 is an open authentication standard, hosted by the FIDO Alliance, and offers strong single factor (passwordless), two factor, and multi-factor authentication. With these new capabilities, the YubiKey enables the replacement of weak username/password credentials with strong hardware-backed cryptographic key pair credentials
Fast IDentity online (FIDO) Alliance	The FIDO Alliance is an open industry association launched 2013 whose mission is to develop and promote authentication standards that help reduce the world's over-reliance on passwords. The FIDO alliance has more than 250 members and Yubico is a co-founder together with Microsoft and Google
Federal Information Processing Standard (FIPS)	The Federal Information Processing Standard Publication is a US government computer security standard used to approve cryptographic modules and is recognized by the US and Canada, as well as the EU
Hardware security module (HSM)	An HSM is a secure physical device, typically plugged into a computer, that is used to protect server environments and the cryptographic keys stored on those servers
Identity and access management (IAM)	IAM is an important series of cybersecurity controls for companies and authorities to protect their customers and employees from phishing attacks and stolen credentials. IAM tools manage the security of login methods, user accounts and permissions to ensure that only authorized individuals have access to sensitive information and data
Multi-factor authentication (MFA)	Multi-factor is an electronic authentication method in which a user is granted access to a website or application only after successfully presenting two or more pieces of evidence (or factors) to an authentication mechanism: knowledge (something only the user knows), possession (something only the user has), and inherence (something only the user is)
Smart card	A smart card is a physical card that has an embedded integrated chip that acts as a security token. Smart cards are typically the same size as a driver's license or credit card and can be made out of metal or plastic. Hardware security keys can also act as a smart card with simplified deployment
WebAuthn	WebAuthn is a global standard for secure authentication on the web supported by all leading browsers and platforms which make it very easy for a relying party, such as a web service, to integrate strong authentication into applications using support built into all leading browsers and platforms
